

# Washington County Fair 2016-Outlaw Class Car Rules

## August 13<sup>th</sup>

This is a run what you bring class. We will only be inspecting for the mandated safety items. It is open to all make and model of cars.

### GENERAL PREPARATION:

1. All glass, plastic and pot metal must be removed. Nothing may remain in the bottoms of the trunk or doors. Rear seats in all cars must be removed.
2. All outer hardware must be removed - door handles, mirrors, chrome, moldings, screws, fiberglass, etc.
3. Driver door must be padded on the inside.
4. Front seats must be securely bolted to the floor. You must have a functioning seat belt.
5. All flammable materials must be removed from the car other than safety padding and the driver's seat.

### CAGE:

1. You must at a minimum have a bar behind the seat, where the dash was located, and bars along or inside the doors creating a 4 point cage around the driver's area.
2. You must have a halo bar securely mounted

### GAS TANK:

1. You are allowed up to a 7 gallon fuel tank. It must be metal. No plastic tanks regardless of how they are mounted will be allowed in this class.
2. Electric fuel pumps are allowed. The on/off switch must be easily accessible and clearly marked with bright paint. If you run an electric fuel pump you must paint a high contrasting E on preferably the rear pillar on both sides of the car or just after your number on each number. This is to help officials easily identify a car that has an electric fuel pump in the event of a fire or rollover so we can get it shut off.
3. Fuel lines must run inside the car, not under the car along the frame.
4. Automotive pump gas only, **NO ALCOHOL**.

### BATTERY:

1. Only one battery of any type may be used.
2. They must be secured inside the car in a metal box and covered, unless you are using a gel cell battery.

Build 'em and bring 'em and hope you brought enough.
